Visual Consistency Guide

To maintain consistency across all generated visuals of Crypto Cassie, the following features should be strictly adhered to:

- **Facial Structure:** Maintain the soft cheekbones, full lips, and overall facial symmetry as depicted in `crypto_cassie_initial.png`.
- **Eye Color:** Striking green eyes are a defining feature and must be consistent.
- **Hair:** Long, wet-and-wavy dark hair. The texture and style should be maintained, allowing for variations in styling (e.g., braids, loose waves) as long as the core texture and length are preserved.

- **Skin Tone:** Smooth medium-brown skin. Lighting should enhance, not alter, this tone.
- **Body Shape:** Natural hourglass figure, toned but curvy, approximately 145 lbs. Proportions should remain consistent across different outfits and poses.
- **Overall Realism:** The character should always appear hyper-realistic, avoiding any stylized or cartoonish elements.
- **Expression:** A warm, expressive smile is characteristic. Other expressions should align with her friendly, confident, and playful personality.
